T-Bar SYSTEM
Modular Merchandising Solutions

UNLOCKED POSITION

3/8" HEX WRENCH
THE ONLY TOOL REQUIRED
FOR FULL ASSEMBLY

LOCKED POSITION

Wirefab/CSource's 44+ years of fixture design and engineering know how, has resulted in a line of effective warehouse merchandising fixtures with premium quality and value.

The true merit of a modular system lies in the durability, and adaptability of its combined components. This is achieved with the use of the SturdyLock technology, a solid yet simple tensioning system that can withstand the challenges of the ever changing warehouse floor. All CSource modular T-Bars have integrated SturdyLock so there is no hardware to contend with, making for quick assembly, easy storage, and endless options to meet any merchandising challenges.

MODULAR T-BAR MERCHANDISING SYSTEM
Developed by Merchandising Managers -- engineered and built by Wirefab / CSource

LARGE 3PC T-BAR

PN: TB-1

The standard T-Bar with the additional benefit of modularity. Allows for quick and easy take-down and set-up to reduce back injuries. Components efficiently store in the back room. Best if combined with the 3pc Storage PALette (see page 16).

Features:
1- large horizontal bar
1- large vertical bar
1- 12" or 24" base

Specifications:
2" sq tube, 84" high, 76" wide, 24" base, Powder coated steel (custom sizes available)

Note: Add our optional sign-line tensioners for no additional charge.

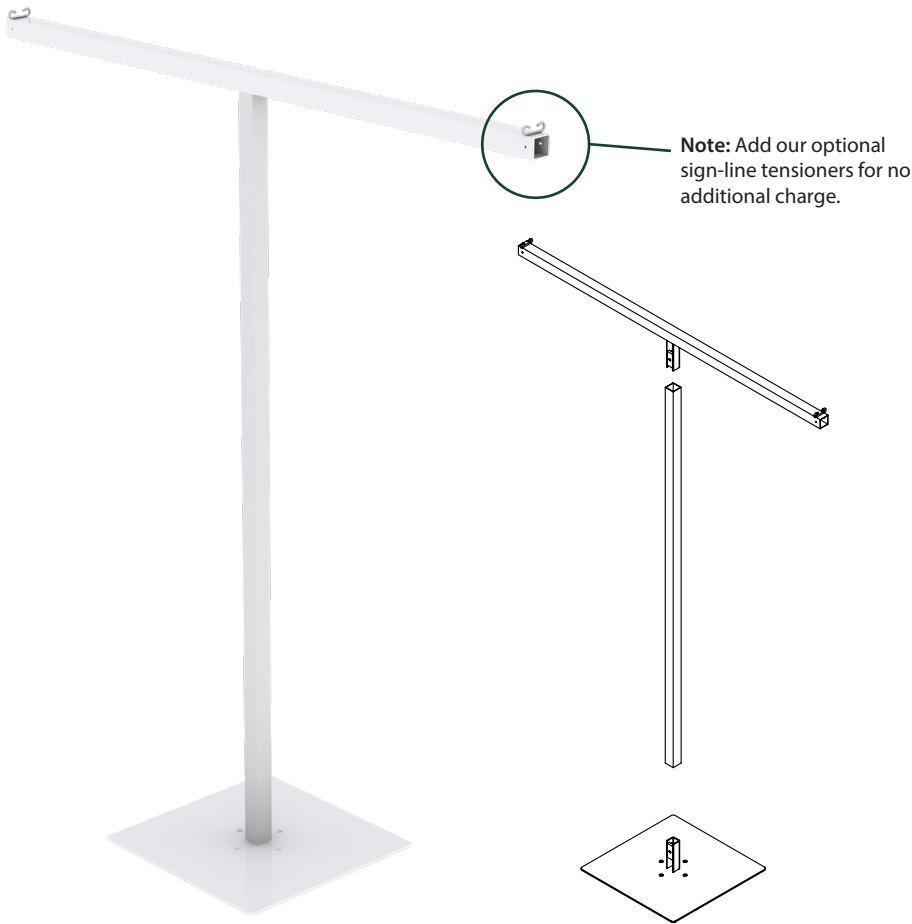

LARGE 2PC T-BAR

PN: TB-3

The standard T-Bar with the additional benefit of modularity. Allows for quick and easy take-down and set-up to reduce back injuries. Components efficiently store in the back room. Best if combined with the 2pc Storage PALette (see page 17).

Features:
1- large horizontal bar
1- large vertical bar welded to 12" or 24" base

Specifications:
2" sq tube, 84" high, 76" wide, 24" base, Powder coated steel (custom sizes available)

WELDED AT THE BASE

13

SMALL 3PC T-BAR

PN: TB-2

Designed for use with table or pallet stacks. The Small T-Bar set seamlessly interchanges with the Large T-Bar components and all T-Bar shelving systems.

Features:
1- small horizontal bar
1- small vertical bar
1- 12" or 24" base

Standard Specs:
2" sq tube, 42" high, 60" wide, 12" or 24" base, Powder coated steel (custom sizes available)

# SMALL 2PC T-BAR

PN: TB-4

Designed for use with table or pallet stacks. The 2pc Small T-Bar set interfaces with other modular T-Bar components and T-Bar shelving systems.

Features:
1- small horizontal bar
1- small vertical bar welded to 12" or 24" base

Standard Specs:
2" sq tube, 42" high, 60" wide, 12" or 24" base, Powder coated steel (custom sizes available)

WELDED AT THE BASE

SMALL 1" 2PC T-BAR

PN: TB-7

Designed for use with table or pallet stacks in centers, our new 1" T-Bar is a light-weight, cost-saving alternative to the 2" sq. tube T-Bar.

Features:
1- small horizontal bar
1- small vertical bar welded to a 6" or 12" base

Standard Specs:
1" sq tube, 42" high, 48" wide, 6" or 12" base, Powder coated steel (custom sizes available)

WELDED AT THE BASE

PRODUCE 3PC T-BAR

PN: TB-10

Smaller than our Large T-Bar, for use in the produce area. These T-Bar components interface with other modular T-Bar components and T-Bar shelving systems.

Also available in: 2-piece **(PN:TB-11)**

Features:
1- large horizontal bar
1- large vertical bar
1- 12" or 24" base

Specifications:
2" sq tube, 72" high, 60" wide, 24" base, Powder coated steel (custom sizes available)

PALETTE (3PC) T-BAR STORAGE SOLUTION
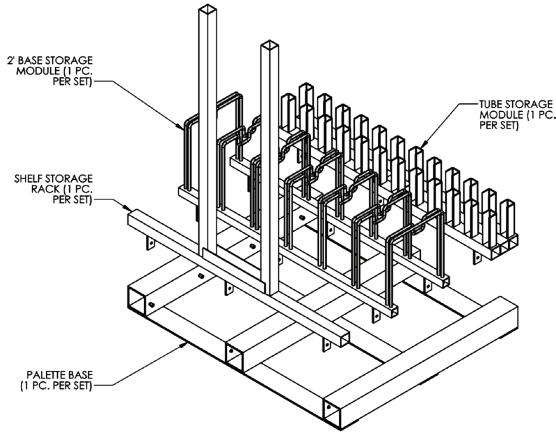

PN: TBP-1

Designed with the same footprint of a standard sized pallet. The PALette 3pc T-Bar Storage Solution is capable of storing up to twelve modular 3pc T-Bars along with six T-Bar shelves. It can be stored securely in your pallet racking, and moved around on a pallet jack or forklift.

Features:
1- palette base
1- tube storage module
1- base storage module
1- shelf storage rack

Specifications:
40" x 48", 54" tall, Powder coated steel
(90" tall loaded with standard T-Bars)

2' BASE STORAGE MODULE (1 PC. PER SET)

TUBE STORAGE MODULE (1 PC. PER SET)

SHELF STORAGE RACK (1 PC. PER SET)

PALETTE BASE (1 PC. PER SET)

SAFELY MOVE AND STORE T-BARS AROUND YOUR WAREHOUSE

Note: Shown loaded with (12) Large, 3pc T-Bars and Accessories. T-Bars and Accessories are sold separately.

PALETTE (2PC) T-BAR STORAGE SOLUTION

PN: TBP-2

Designed to be fastened on a standard sized pallet. The PALette 2pc T-Bar Storage Solution is capable of storing modular 2pc T-Bars. Easily and securely store T-Bars in your pallet racking, or move them around with a pallet jack or forklift.
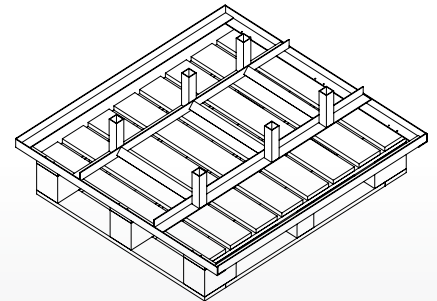

Features:
1- fully welded palette base

Specifications:
50" x 48", 7.5" tall, Powder coated steel

**24" BASE VERSION
HOLDS (6) 2PC T-BARS**

**12" BASE VERSION
HOLDS (12) 2PC T-BARS**

Note: 24" base version shown above loaded with (6) Large 2pc T-Bars. T-Bars are sold separately.
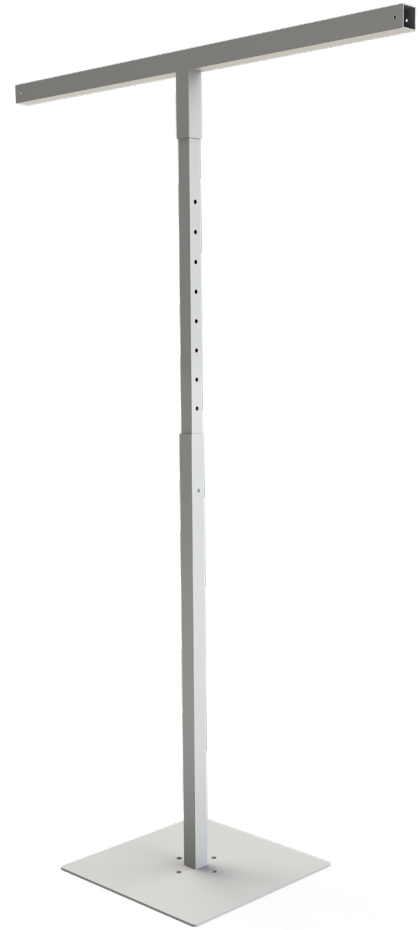

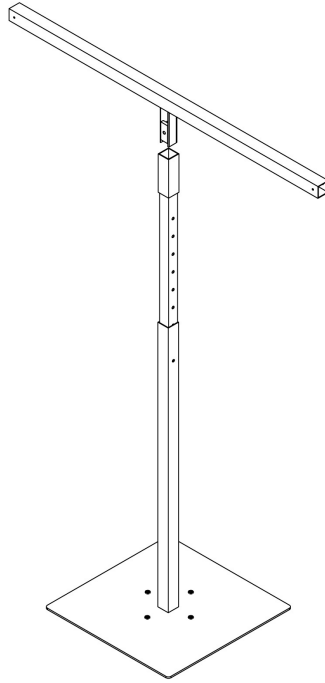

ADJUSTABLE T-BAR

PN: ATB-1

This versatile T-Bar adjusts in height from 56" to 84" in three inch increments, opening the door to a whole new range of merchandising possibilities, like challenging seasonal displays. These T-Bar components interface with other modular T-Bar components and T-Bar shelving systems.

Features:
1-adj. vertical bar assembly
1-horizontal bar
1-24" base
Standard 3/8" hardware included

Specifications:
Adjusts 56" to 84" high, 60" wide, 24" base,
Powder coated steel

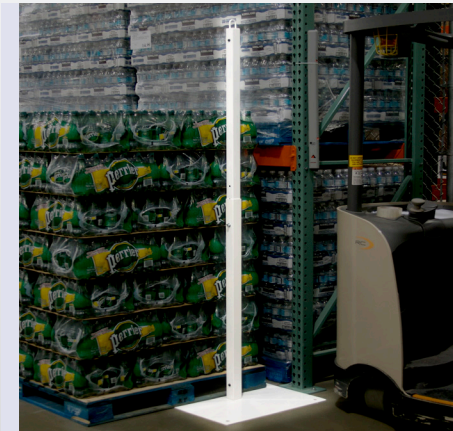

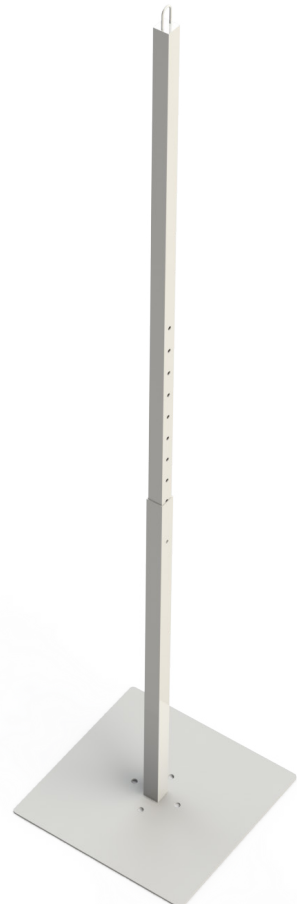

# ADJUSTABLE SIGN LINE POLE

PN: ATB-2

A great solution for sign posting fence line pick-stock. The adjustable cable pole is capable of running sign line at varying heights between 78" and 108".

Features:
1- adjustable sign-line assembly
1- 24" base
Standard 3/8" hardware included

Specifications:
Adjusts 78" to 108" high, 24" base,
Powder coated steel

18

T-BAR DISPLAY ARM

PN: TBA-1

Designed to attach to any standard 2" T-Bar.
Conveniently displays hanging merchandise.

Also available in: 1" clamp design. **(PN:TBA-2)**

Features:
Easy installation, no sharp edges, powder coat finish

Specifications:
36" high, 5" wide hanger,
3/8" mounting hardware included
Powder coated steel

# T-BAR EXTENDED SIGN BAR

PN: TB-9

Designed to extend the sign bar space. Attaches to 2"
square T-Bar.

Features:
1- horizontal sign bar extension

Specifications:
32" wide x 32" deep
3/8" mounting hardware included
Powder coated steel

LARGE FREESTANDING ADJUSTABLE SHELF

PN: ATB-4

Originally designed with two shelves, the new large adjustable freestanding shelf will accommodate larger TV's and a variety of merchandise such as bicycles and seasonal items. Multiple shelves can be placed in series to extend the display platform.

Features:
1- adjustable vertical bar assembly
1- large shelf with zip-tie mounting holes
1- 24" base
Standard 3/8" hardware included

Specifications:
Adjusts 44" to 62" high, 48" wide x 32" deep shelf, 24" base, Powder coated steel

T-BAR TOP SHELF

PN: TBS-2

Developed to 'float' display models. Designed for mounting on a standard 2" square tube.
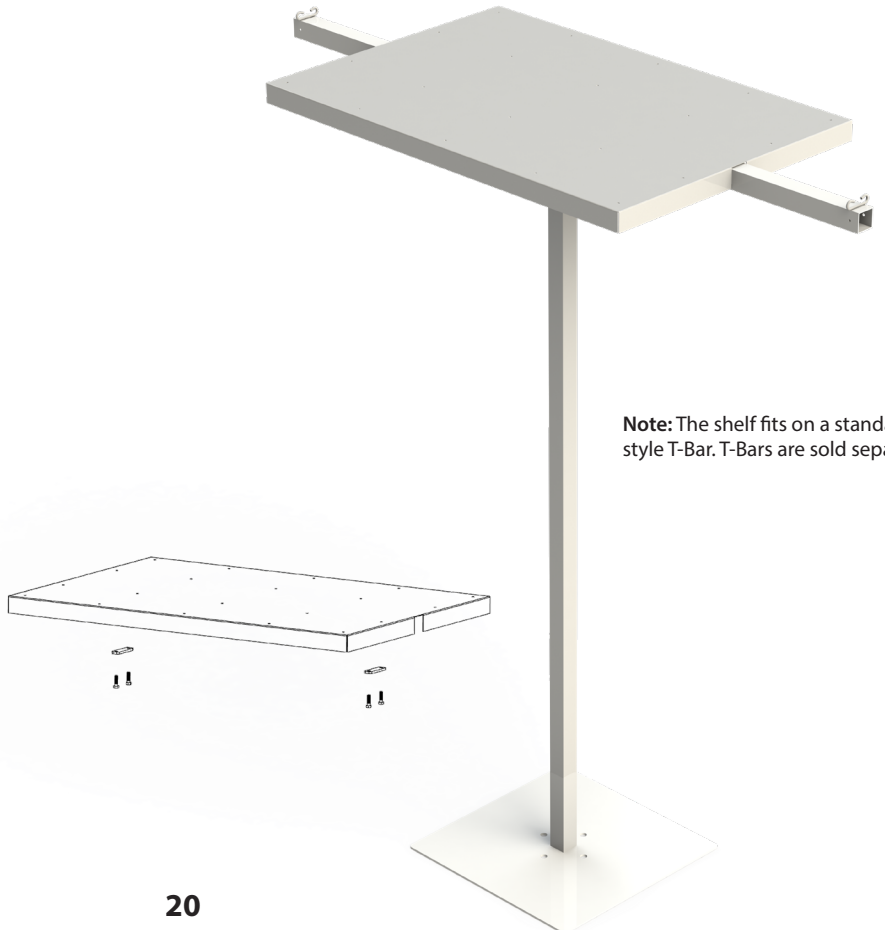

Also available in larger size **(PN:TBS-3)**

Features:
Zip-tie mounting holes on shelf
3/8" mounting hardware included

Specifications:
TBS-2 - 48" wide x 32" deep
TBS-3 - 60" wide x 36" deep
Powder coated steel

Note: The shelf fits on a standard 2" style T-Bar. T-Bars are sold separately.

FREESTANDING ADJUSTABLE SHELF

PN: ATB-3

This adjustable freestanding shelf has been used in many creative ways to merchandise a wide variety of items. One example is to place the shelf within a 4-square to display electronic items.

Features:
1- adjustable vertical bar assembly
1- large shelf with zip-tie mounting holes
1- 24" base
Standard 3/8" hardware included

Specifications:
Adjusts 44" to 62" high, 24" base, 48" wide x 14.5" deep, Powder coated steel

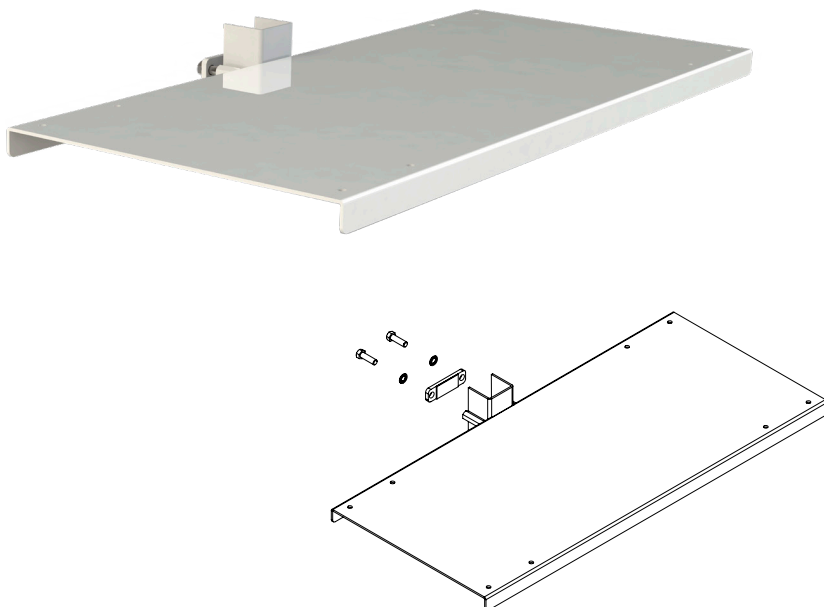

T-BAR SHELF

PN: TBS-1

Developed to 'float' display models. Designed for mounting on a standard 2" square tube.

Features:
Zip-tie mounting holes on shelf
3/8" mounting hardware included

Specifications:
32" wide, 14.5" deep, Powder coated steel

PRODUCT DISPLAY TABLE & ADD ON SHELF

PN: PD-1

The newly redesigned Product Display Table features reinforced shelves for supporting heavyweight merchandise. The knockdown design provides cost efficient shipping and convenient back room storage.

Features:
Heavy duty frame, reinforced shelves, fits 40"x 48" pallet

Specifications:
48" high, 39.75" wide, 47.75" long, equal shelf spacing: 22", Black powder coated steel
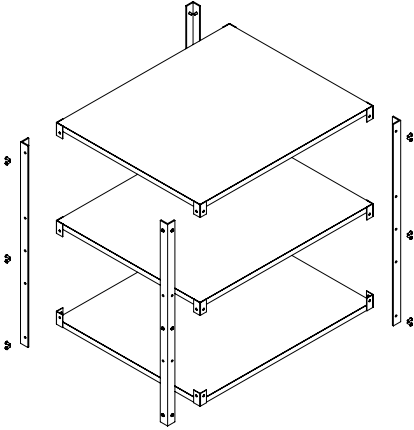

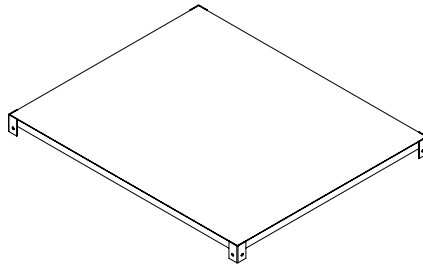

PN: PD-2

The optional Add-On Shelf offers versatility to the Product Display Table and allows for a wide variety of merchandise to be displayed with less open display space.

Features:
Heavy duty frame, reinforced shelf

Specifications:
Equal shelf spacing becomes: 14"
Black powder coated steel

Note: Configuration in back shows the Product Display Table with Add On Shelf included, items are sold separately.

PLANT T-BAR

PN: TB-6

Convenient for plant displays. Modularity allows for quick and easy take-down and setup. Components efficiently store in the back room.

Features:
1- horizontal bar with fixed vertical bar
1- 10" x 10" base

Specifications:
36" high, 24" wide, 10" x 10" base,
Powder coated steel

PLANT SIGN BAR

PN: TB-8

Designed for the garden center to be used as a single plant sign holder. Lightweight design for easy and convenient use and storage.

Features:
1- vertical bar with 5"x7" fixed sign plate
1- 10" x 10" base

Specifications:
36" high, 10" x 10" base, Powder coated steel

HEIGHT ADJUSTABLE FOLDING TABLE

PN: FT-1

Designed to provide a balanced combination of functionality, ergonomics and durability, the folding table is your best defense in the relentless battle of keeping folded goods tidy and soft-lines moving.

Features:
All metal construction, fold-out top surface, adjustable height, 3.5" bumpers

Specifications:
18" wide, 38.5" length, 35"-42" high, fold-out top surface adds 18", 4" swivel/non-marking casters, Black powder coat finish

**Note:** The blue folding board is sold separately.

FLIP-FOLD FOLDING BOARD

PN: FB-1

FlipFOLD can fold any size shirt (small-XXXL) to a uniform size 9"x12" in five seconds, for a consistent uniform fold every time.

Features:
Fits in folding table holder, no sharp edges

TABLE PRODUCT SUPPORT
